DETAILED ACTION

Response to Amendment

1. This office action is in response to the amendment filed on 8/13/2008. Claims 19-30 were canceled. Claims 31-61 are pending in the instant application.
2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/13/2008 has been entered.

Claim Rejections - 35 USC § 112, First paragraph

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
4. Claims 31-61 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Re claims 31, 41, 49, 56 and 62, it recites “encapsulating the second packet within the first packet”. The original specification fails to describe the above claim limitation.

Claims 32-40, 42-48, 50-55, 57-61 and 63-66 depend on claims 31, 41, 49, 56 and 62 are therefore similarly rejected.

5. Claims 41-48 are rejected under 35 U.S.C. 112, first paragraph, as a single means claim.

Re claim 41, it subject to an undue breadth rejection under 35 U.S.C. 112, first paragraph. For example, claim 41 recites a controller and some of the functions of the controller but nothing else. See MPEP 2164.08(a) and *In re Hyatt*, 708 F.2d 712, 714-715, 218 USPQ 195, 197 (Fed. Cir. 1983).

Claims 42-48 depend from claim 41 are similarly rejected.

Allowable Subject Matter

6. Claims 31, 41, 49, 56 and 62 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, set forth in this Office action.

Response to Arguments

7. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.
